at Home

7th April 2020

Many countries across the world have been asked or have chosen to remain at home during the COVID-19 outbreak. Thousands of Italians, in several cities, clapped from their windows and balconies as healthcare workers went to work, raising spirits with a flashmob, during the lockdown period (where most people remain at home). Families and neighbours also sang and crashed pots and pans together for the performers in cities across the country.

Things to talk about at home...

-  Think about the things that make you happy. Can you make a list?
-  Can you think of a time you've cheered someone else up, or a time someone cheered you up when you needed it, how did they do it?
-  Why do you think people chose to take part in the celebration from their apartments? How do you think it made the healthcare workers on their way to work feel?

Please note any interesting thoughts or comments here...
