Dear Parents and Carers,

**Message from SIPS Education Catering Service about your child's school lunch menu:  
We are writing to you as the provider of school meals at your child's school.**

## Menu Change for Students with Allergies

As we have recently seen a significant increase in the number of children identified as having a food allergy, we are taking the opportunity to review our school lunch provision for children with food allergies, to ensure we continue to provide the best we can for your child. Whilst we work through this review, we have taken the decision to use the following as the menu for students that have been identified, by whatever means, as having an allergy. We have chosen this menu content as it has the fewest allergens, and a defined preparation and serving process for your school kitchen.

The reduced menu\* comprises of:

- Jacket Potato (filling dependent on the information provided regarding the student's allergy).
- Jelly or Yoghurt (dependent on the student's allergy).

\*SIPS may change menu content from time to time.

We will write to you again with an update on our review. If you or your child orders meals on the Cypad system, we will make the changes to reflect their new menu. Your support and understanding is very much appreciated.

Should you have any questions about the allergy information held about your child by the school, may we ask that you contact them directly.

If you have any questions about the menu changes, please email [catering@sips.co.uk](mailto:catering@sips.co.uk).
